DESIGN LIGHTING
FIXTURES

Traditional quality, modern design

ELITE BOHEMIA is a Czech family company that has become famous in the glass industry for its luxurious lighting fixtures made of Czech crystal. After 25 years of successful activity on the market of traditional chandeliers, it expanded its product portfolio and entered the world of modern design.

Design lighting fixtures from its production are inspired by current trends. They are designed to illuminate spaces and enrich customer's lifestyles. Their high quality and master craftsmanship is reflected in every detail.

AMULET

Elite Bohemia

AMULET

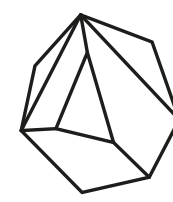

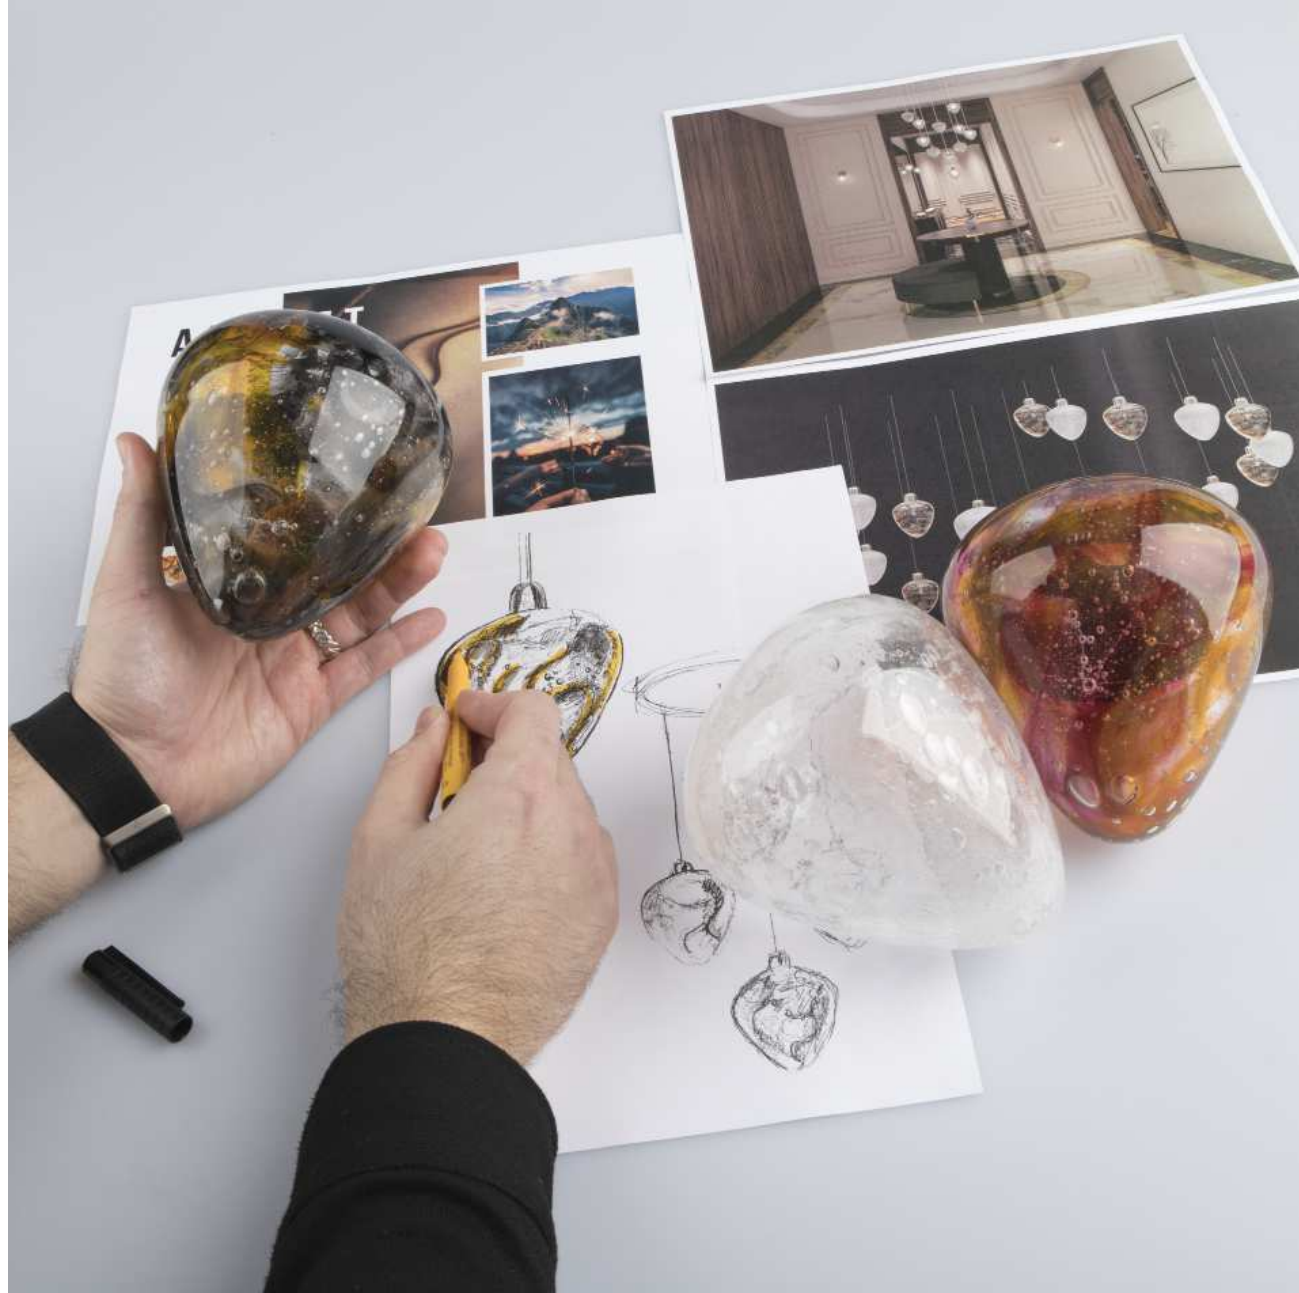

Symbol of protection and happiness

The inspirations for the creation of the AMULET light fitting have become legendary accompanying man since time immemorial.

According to world mythology amulets protect, bring luck and express the unknown.

The modern concept of the amulet symbol will bring a whiff of magic with a promise of new life.

The designer of the light fittings worked with the idea of the modern concept of a symbol in which the magic of the amulet is combined with the magic of Bohemian glass.

GLITTERING EYE

Elite Bohemia

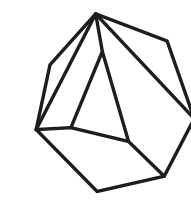

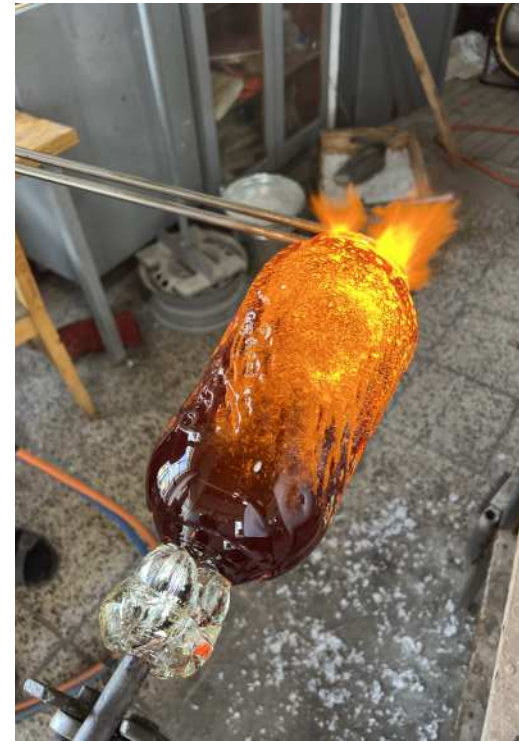

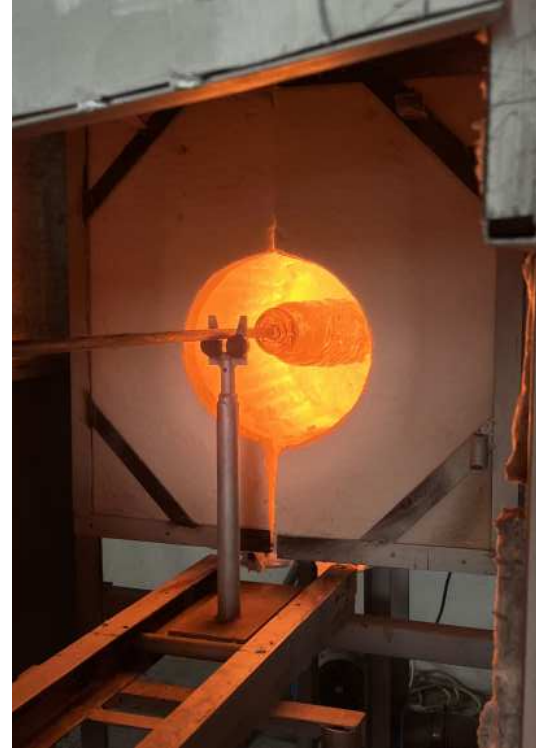

GLITTERING EYE

Crystal magic hidden in a geode

The creation of the GLITTERING EYE lighting fixture was inspired by a geode – a natural stone, the interior of which is a cavity filled with smaller or larger glittering crystals of quartz or amethyst.

The densely shaped component resembles this natural stone. The cut crystals of Czech crystal inside the component evoke glittering gems and give the lighting fixture a unique shine and elegance.

Thanks to the perfect combination of handwork and skill of Czech glassmakers, each component is completely original, just like nature itself.

Components

Diameter: 200 mm (7,87 in)
Dept: 60 mm (2,36 in)
Weight: 450 g

HOLLY LEAF

Elite Bohemia

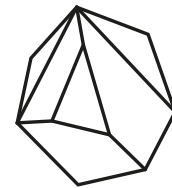

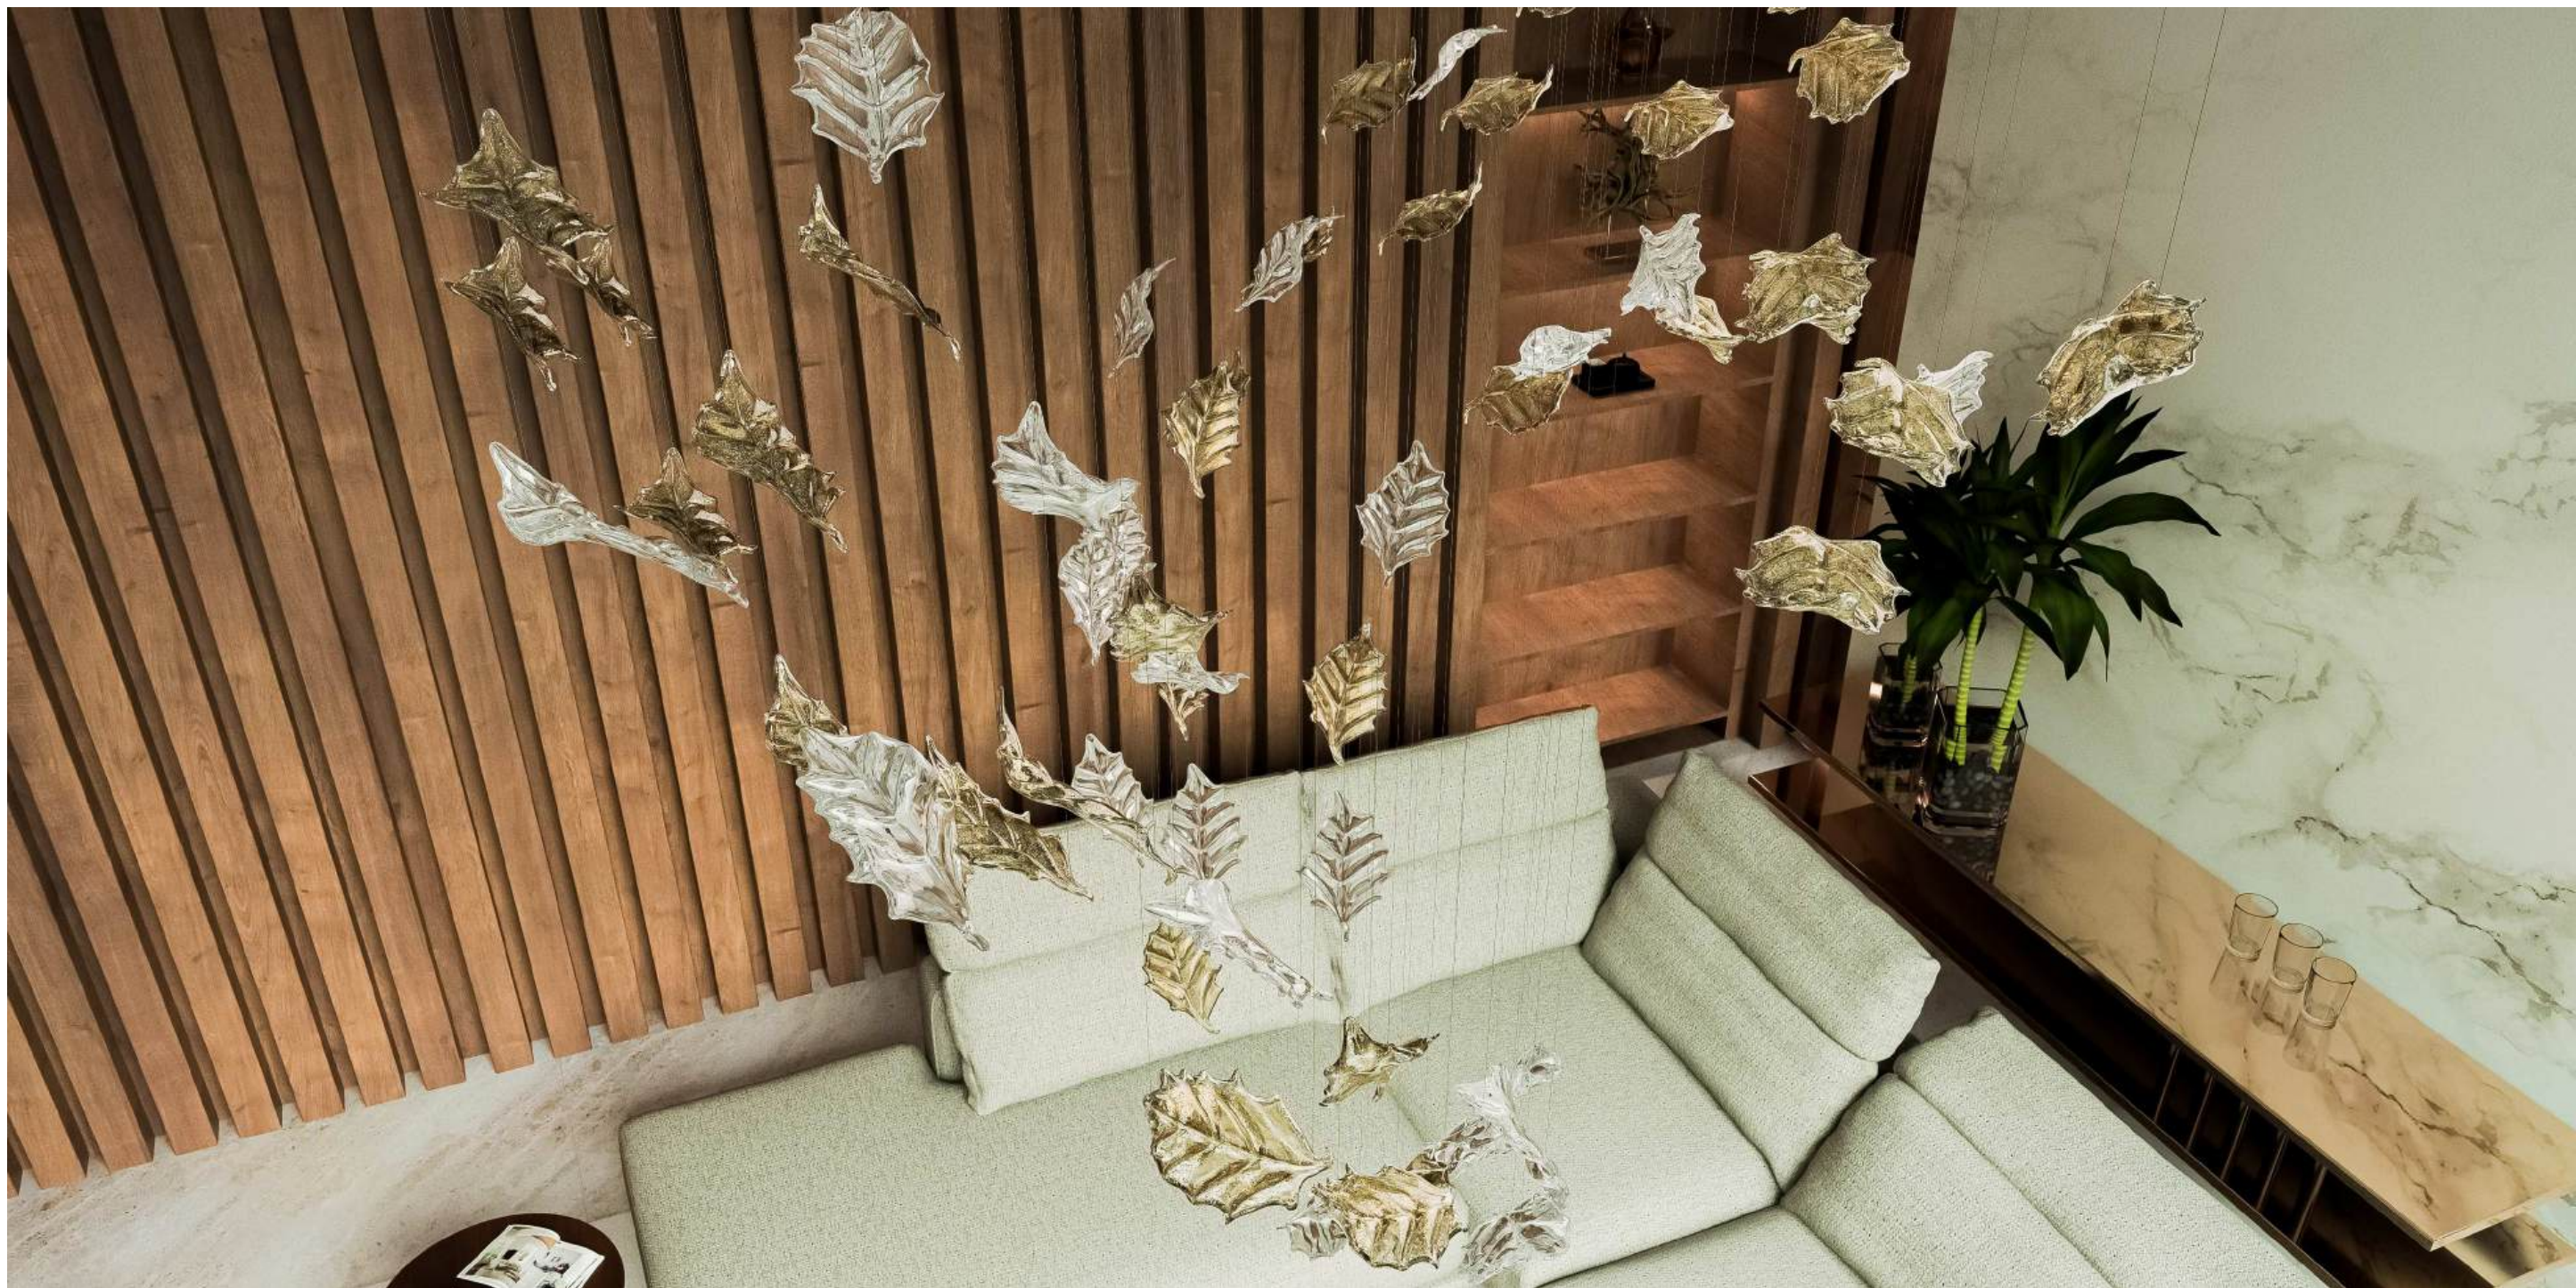

HOLLY LEAF

Symbol of Joy

The Holly Leaf design is made up of crystal components that resemble a holly leaf in shape. This popular tree or shrub symbolizes happiness, love, health and joy for many.

The dynamics and lightness of the luminaire is also enhanced by the variable mounting system, thanks to which the individual leaves elegantly float in the air and reflect light in all directions.

Components

ICEBERG

Elite Bohemia

ICEBERG

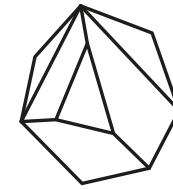

Arctic elegance

The Iceberg crystal lighting fixture brings the magic of Antarctic and Arctic glaciers directly into the interior. Its design was inspired by the majestic icebergs that break off from the ice shelves and float through the ocean.

Each individual hand-formed Czech crystal component is suspended from delicate metal strings, creating the impression of the outstretched wings of the birds that inhabit these frosty landscapes, which immediately attract attention.

The external lighting of the fixture creates fascinating effects reminiscent of the glitter of ice crystals.

Thanks to the beautiful details of the components, the lighting fixture is ideal for hanging above the bar, dining table or sitting area in the living room, so that we can admire its beauty up close.

ILLUSION

Elite Bohemia

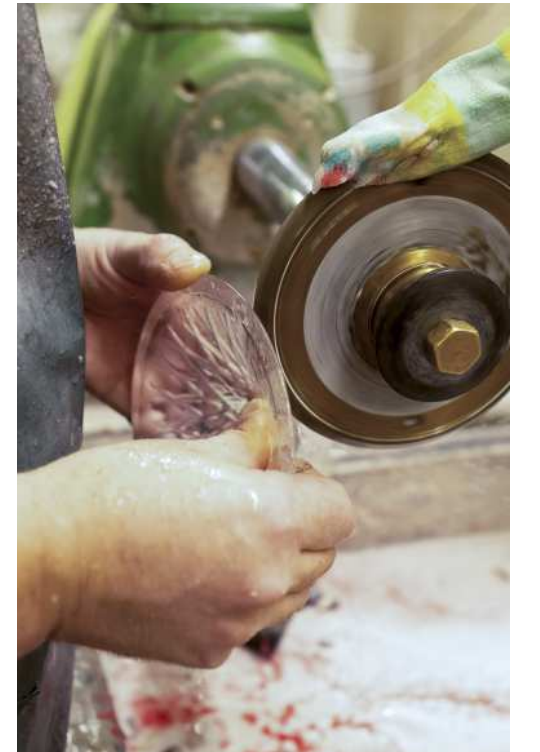

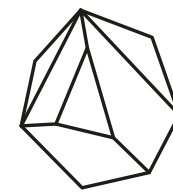

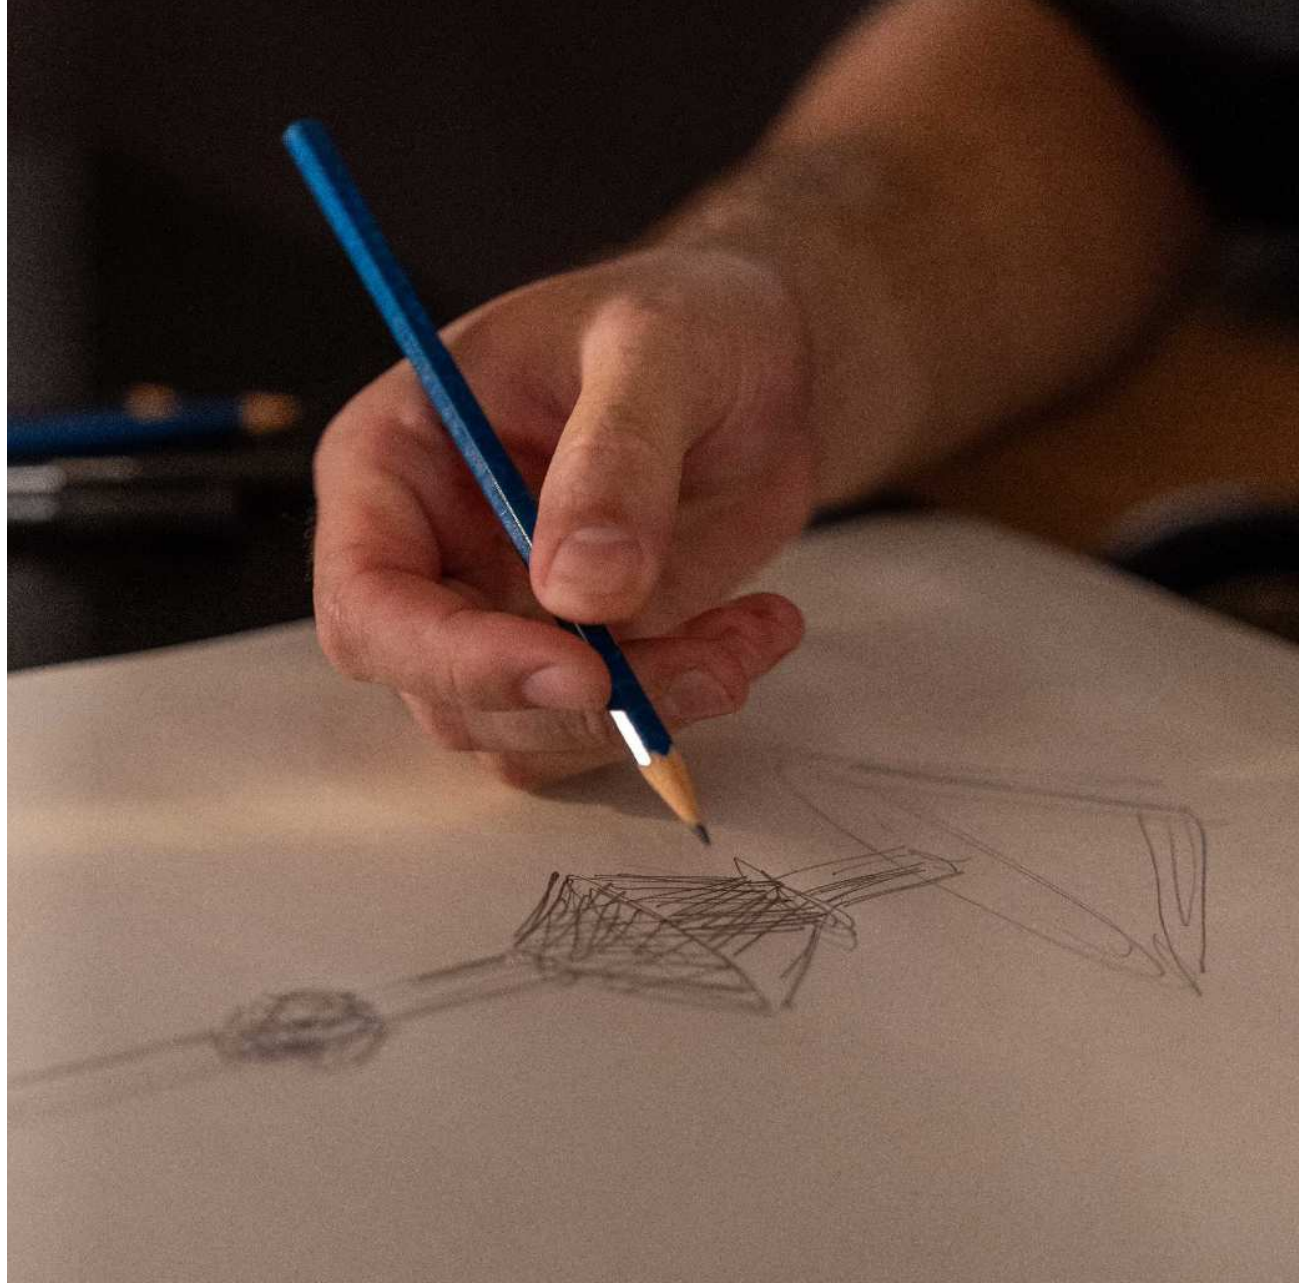

ILLUSION

Fascinating play of optical effects

The Illusion crystal lighting fixture masterfully combines the traditional elegance of a classic chandelier with an innovative modern design.

Its unique suspension makes it possible to create endless variations and adaptations of the classic style in a contemporary concept.

The lighting fixture is also exceptional thanks to its new finish called Kaleidoscope. This unique cut is created by crossing a checkered pattern, creating fascinating optical effects that resemble looking into a kaleidoscope. Thanks to high-quality Czech crystal and a masterfully mastered glass grinding technique, the individual cuts beautifully refract the light.

MELODY

Crystal Serenade

The MELODY light fixture design consists of playful crystal rods. Thanks to their arrangement, they resemble a perfect crystal melody that resonates when gently caressed by a ray of sunlight.

Each rod is a masterpiece, carefully crafted with love and attention to detail. Its surface is adorned with delicate cuts that create incredible lighting effects.

The size, shape, and density of the cuts influence not only the appearance of the fixture but also its overall impression.

SEASHELL

Elite Bohemia

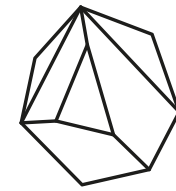

SEASHELL

Shimmer of Luxury

The Seashell design will amaze you with its perfect organic shape based on the shape of a natural seashell. For many this equally symbolizes a new beginning and a mystery.

The hand applied gold adds to the authenticity of the crystal work compared to the natural seashell of the chandelier and table lamp made of Bohemian glass. This artistically depicts the iridescent reflection of a real seashell and elegantly decorates the circumference of this original design.

STREAM

Elite Bohemia

STREAM

The story of water expressed through design

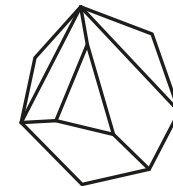

The Stream lighting fixture made of Czech crystal uniquely connects aesthetics, functionality, and the symbolism of the aquatic world.

One of the key design elements is the hand-shaped components whose design creates a delicate wave that from below resembles the movement of water on the surface, or the graceful Movement of a stingray in the sea.

This living shape changes its appearance depending on the angle of view and, like water, reflects light. This effect brings life to the space while introducing a piece of nature into the interior.

In the Stream lighting fixture design, color plays a key role. The combination of cool tones with transparent crystal enhances the impression of flowing water and simultaneously allows the fixture to adapt to various environments.

The STREAM lighting fixture is perfectly suited to residential spaces, as well as public spaces. For example, wellness zones or spaces with pools.

WATER

Elite Bohemia

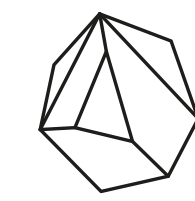

WATER

The essence of purity in every drop

The designer light fixture WATER will illuminate your interior, giving it energy and luxurious style. Its creation was inspired by nature and the dynamics of a water geyser, which symbolizes movement and life.

The WATER light fixture is made of high-quality Czech crystal. Thanks to a special technique, tiny air bubbles are inserted into the glass, giving it fascinating depth and a unique optical effect.

This light fixture is ideal for lovers of subtle extravagance and precise craftsmanship. It fits perfectly into modern interiors, where it becomes not only a functional light source but also a distinctive artistic element.

ELEMENTIS

Elite Bohemia

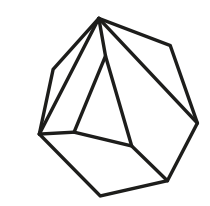

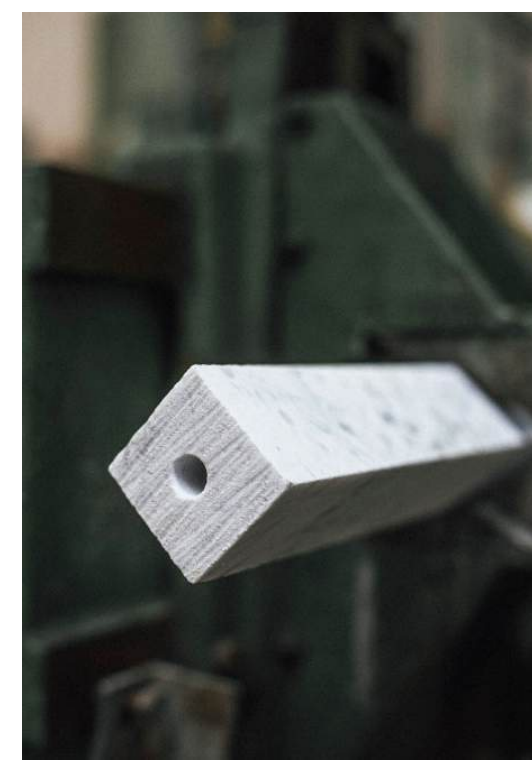

ELEMENTIS

A masterful combination of marble and Czech crystal

The Elementis lighting fixture is the result of a desire to connect the contrasts of two iconic materials – natural marble and Czech crystal. Every detail of this designer light was created with emphasis on timeless values such as quality, luxury, elegance, and functionality.

The smooth and minimalist shape of the marble, available in two colour variants (black Nero Marquina and white Carrara), creates a perfect contrast with the sophisticated glass element made of Czech crystal. After the pressing technology, it is precisely ground and polished to create a perfect shape that produces unique lighting effects.

log
energy from nature ...

LOG

.... *we draw on energy from nature*

An early evening walk along a forest path will freshen the mind, remove stress and bring a feeling of calm. Free us from the past and let us relish the magic of the present.

Since time immemorial, wood has inspired and continues to inspire masters of the glass craft. The designers of the ELITE BOHEMIA company also succumbed to its charm, who decided to make this unique organic shape from Czech crystal using traditional glassmaking technologies that are passed down from father to son in northern Bohemia.

An important part of the crystal element are its branches, which are naturally connected to the main part of the component itself.

The shape of the crystal light fitting LOG resembles a piece of natural wood. It took almost a year to create from the moodboard, through the sketch, the production of the prototype to the final product.

During the development of the lighting, great emphasis was placed not only on the size and appearance, but also on the surface itself, which resembles the bark of a tree. Its unique appearance was created thanks to the decorating technology of the 19th century, which was used mainly in architecture. The GOLD variant is additionally decorated with hand-applied gold.

THE STORYBOOK
OF CRYSTAL CHANDELIERS

Welcome to the world of ELITE BOHEMIA, located in the small mountain town of Semily, 90 km from Prague. This picturesque, yet rugged region rich in natural materials has become part of the Crystal Valley, where Czech glassmaking and renowned Bohemian crystal were born.

Our teachers were the master glassmakers of old who learnt their craft and their skills from their fathers. We have continued to develop their artistry. We have created a modern glass company by impeccably combining traditional and modern technologies with the wishes of our customers.

ELITE BOHEMIA is a family company that has been involved in the production of classical and designer light fittings for three generations.

We began writing our history in 1996. Since then, we have launched more than 10,000 light fittings onto the international glass market in various colours and sizes.

We cooperate with more than 40 countries as successful exporters of Bohemian crystal.

Our long-term business strategy involves high quality manual work focussed on perfect detail, a personal approach to our customers and flexibility.

We only work with very high quality Bohemian crystal, which originated in the 17th century. It has become a sought-after international rarity thanks to its unique brilliance, perfect hardness and flawless purity.

Various personalities from world history, such as Louis XV, the Austrian Empress Maria Theresa, the Russian Tsarina Elizabeth and Osman III, the ruler of the Ottoman Empire, have all been enchanted by it.

Light of Diamond

Light of the Diamond is a unique light fitting that fascinates thanks to its unmissable sparkle.

The individual crystal components have been completed with a traditional, yet rare cut that is achieved through the combination of precise manual work and the skill of an experienced glassmaker.

Its appearance creates flawlessly precise hexagonal shapes that represent a cut diamond. This means that this richly adorned light fitting sparkles from any point of view.

Dancing Light

A perfect lighting fixture that will imaginatively transfer the glow from churches to the interior.

The design of the lighting fixture is reminiscent of richly decorated crystal chandeliers, which decorated sacred temples in the 19th century. The uniqueness of the chandelier lies in the use of unusually high sleeves, in which the minimalist shape stands out inserted candles. The Dancing light chandeliers made of Bohemian crystal of the highest quality, which is already being produced since the 17th century. Its glitter decorated the palaces of important monarchs, such as the French King Louis XV or Empress Maria Theresa of Austria.

This crystal lighting fixtures fits perfectly into a spacious classic and modern interior.

Queen of Light

A crystal lighting fixture whose shape resembles a richly decorated royal crown. It consists of two parts. The first stands out for its lightness and refinement, the latter impresses with its rich and unmistakable design glitter. Both parts are delicately connected by stylish pearl chains, which they create a perfectly balanced whole.

The uniqueness of the lighting fixture lies precisely in the rich decoration of the lower part, where 20% more decorative crystal components are used, than is usual for these chandeliers.

The lighting fixture is made of Bohemian crystal of the highest quality. Thanks to its dimensions is perfect for larger luxury halls or concert halls.

Magic Swan

An elegant crystal lighting fixture, the design of which resembles floating swans, which for many they represent a symbol of beauty and grace.

An important design element of the chandelier is the specially shaped arms forming a perfect aesthetic whole. The angle of these arms is deliberately chosen so that to make the image of floating swans as faithful as possible.

The Magic Swan chandelier is made of Bohemian crystal of the highest quality, whose brilliance and sparkle are loved by people all over the world. Thanks to its design and the dimensions fit perfectly into classic and modern interiors.

Golden Glow

Chandelier from
Bohemian Crystal

Main idea

The GOLDEN GLOW light fixture will catch your eye thanks to its unmistakable golden color.

It decorates both the crystal and metal parts of the chandelier. Amber crystal pendants give it a unique golden accent.
